## New Bridge Approaches under Study In Venice

\$500,000 Refinancing Plan Includes Bridge Railing Replacement

Venice's city council took preliminary steps Friday night to ward financing outstanding McKinley Bridge revenue bonds to pay for construction of new approaches and new railings on the city-owned bridge.

The council authorized Cleveland & Colpitts, consulting engineers in New York City, to make a study of traffic flow and an estimate of future toll revenues in order to determine feasibility of the proposed refinancing.

Mayor John E. Lee said the city hopes to raise \$500,000 by refinancing.

This includes \$300,000 to help build new approaches in connection with the new Broadway railroad crossing traffic underpass and the new river bridge, plus \$100,000 for new guard railings on the bridge.

**Interest Proposed**  
Mayor Lee said the original issue of bonds cannot be called until 1973. "We hope to issue the new ones for 4 1/2% if we can, but that's up to the bond people," he said.

"We're negotiating with Illinois Terminal Railroad, which owns 70% of our B bonds. We must get approval for 75% of the B bonds to go ahead with this, but, of course, right now it's in the talking stages," the mayor said.

Cleveland & Colpitts outlined a 10-point plan for the study. The study is to be completed in four weeks at a cost of \$4300.

The plan calls for:

1. Obtain preliminary design and location information for new approaches from city engineers.
2. Visit Illinois and Missouri district engineers for information on time schedules for new approaches.
3. Review traffic volumes on McKinley Bridge, especially the new Interstate Route 55 bridge across the Mississippi River at Poplar street and location of access points to the bridge from the riverfront road between Alton and East St. Louis.

4. Review traffic origin and destination data obtained in 1959 from motorists using the bridge.
5. Obtain and analyze hourly data, monthly and annual traffic data for different classes of vehicles using the bridge. Venice is expected to furnish this data from city traffic records.

6. Review recent years' traffic data for other St. Louis area Mississippi River bridges and compare these bridges' traffic trends with that of McKinley.
7. Estimate the practical traffic capacity of McKinley Bridge, premises on completion of the new approaches.

8. Drive the principal alternative routes for motorists using the bridge and compare them to McKinley Bridge time and mileage advantages. Estimate changes in these advantages for future years, assuming completion of the new highway and bridge construction in the area.

9. Visit area truck companies.

# Council Committee Presents Data On Treatment Plant, Interceptors

**Daily Fines Probable**

It was noted by the committee that most of the surrounding communities have complied or are complying with SWB pollution abatement orders, and that Granite City would be confronted with possible daily fines for failure to comply.

Studies have shown, "that the most fair, equitable and economical method of financing a sewage treatment system is to issue revenue bonds to finance the treatment plant, which will be paid for by the users of the plant who will pay in relation to the quantity and character of sewage they put through it."

"Interceptors would be financed by general obligation bonds which will be retired by a property tax."

This means that industries, utilities, railroads, commercial and business will pay a proportionate share with the home owner. Under revenue bonds, the major cost of installing interceptor sewers would be paid by the home owner.

## Council Meeting Set For Tonight

Intention of filing a claim against the city, notice of a hearing in Springfield before the Illinois Commerce Commission for Western Union's proposed rate increases for telegrams and long-distance calls, date in the long-dated "taxi" date increase ordinance are items for tonight's Granite City Council session.

The Special Pollution committee also is planning to seek council permission for printing and distributing a brochure pertaining to the Nov. 26 special election for instance of \$2,500,000 general obligation bonds for the construction of interceptors.

The intended claim against the city is to be filed by Thomas Baker, 112 Grandview street, Venice, for alleged injuries suffered Oct. 27 by his wife, Fern, in the 2000 block of Iowa street on city-owned property.

The hearing on Western Union's request for rate increases for message and commercial news service is to be held at 10 a.m. tomorrow in Springfield before the Illinois Commerce Commission.

A letter requesting annexation of a tract at National and Sunbury avenues, with the Good Shepherd Evangelical United Brethren Church, will be submitted this evening. The request is being made by Harold Ward, president, and James H. Drury, secretary of the church's board of trustees.

The council meeting, starting at 8 p.m., also is to include reports of city officers, including the monthly financial report, and committee reports.

Items taken included a 14-volt battery, a number of open-end wrenches, an electric drill, a roll-out fan, a large floor lamp, an oil can, and two electric extension cords.

Entrance was gained by forcing a hasp off a door.

Pennies and cupcake wrappers were taken in a burglary between 9:30 p.m. Saturday and 1:30 a.m. Sunday at the J&W Confectionery, 4601 Maryland road. Items reported to county authorities by the proprietor, William Freeman.

**Additional Burglary Looled**

An inventory carried out at the Garrett liquor store, 337 Weaver street, Venice, showed Friday that articles taken in a burglary Nov. 13 included a fifth of whiskey, several half-pints of whiskey, \$38 in currency and rolls of coins and miscellaneous merchandise from the store.

Three locks and hinges were destroyed and a cash register damaged. It was previously noted that the intruder took a pistol and an undetermined amount of money from vending machines.

An attempted break-in at the office of Boilerworks Local 575, 1814 Delmar avenue, was reported to Granite City police at 4:20 p.m. Thursday. The report said the intruder pushed the front door to the office to gain entry. Nothing was taken.

"We are fully aware that no one wants to pay taxes," the committee members continued, "but you must recognize the fact that the building of a sewage treatment system cannot be avoided or ignored any longer."

**\$500,000 U. S. Grant Likely**

It was noted by the committee that the city will probably qualify for a full \$500,000 grant from the federal government to help pay the cost of an added sewage treatment plant with interceptor sewers.

Outlining the cost, the committee members said the construction of a treatment plant without interceptor sewers would cost \$1,715,000, while with interceptors, the cost could be cut to \$1,417,500 for a savings operation and interest savings, the city would later find it less costly to comply with forthcoming secondary-sewage treatment facilities when required by state or federal law.

"The interceptors, they said, would also relieve the Namoki sanitary sewer system lift station from back pressure in the combined sewers and would add materially in the stoppage of the contaminated sewage being pumped onto streets and into homes during normal rainfall."

Construction of interceptors at this time would be before Namoki road is widened and paved and would save the problem of relocating the lines. Also an interceptor planned along Madison avenue south from 21st street would result in a savings to the city in the removal of old trolley tracks from 19th street south.

The five-foot outlet interceptor sewer would give additional capacity for storm water runoff for all sections of the city, they emphasized.

The tax cost for the bond issue would amount to 11.1 cents per \$100 assessed valuation. Moxton said the average home assessment in the city is slightly higher, more than \$600, and the tax rate would be \$6.05 a year or 35 cents a month.

For the smaller treatment plant, revenue bonds issued at the cost would amount to an estimated 90 cents a month, \$180 a year.

The following items were taken from the files of the Granite City Press-Record

**THURSDAY NOV. 17, 1938**  
Room 516 of the Federal Building in St. Louis was filled this morning at 10 o'clock when Col. P. S. Renshaw, an Army engineer, called a meeting to consider the proposition of straightening the Mississippi River between the Chain of Rocks Bridge and the Eads Bridge.

A party of five, including Mayor M. D. Kirkpatrick, Percy Davidson, J. W. Senef, Ben Schermer and E. E. Campbell, was among those present.

Approximately 300 Legionnaires attended a regular monthly meeting of the Madison County unit which was held in Granite City last night. Fred Whitlock, commander of the 22nd district, was the speaker.

Fred Branning, local grocer, barged the limit in three days hunting near Hardin, Ill. His game included six cock pheasants, quail, rabbits and snails. The short season on pheasant closed Tuesday.

The Tri-City Grocery Co. is having a sprinkler system installed at its warehouse at Eighteenth and State streets, including an installation in the new bakery as it is being constructed. The sprinkler system is an automatic contrivance to extinguish fires. The system includes a set of pipes with caps of strategic points, the entire design being to extinguish the fire before it gains any headway.

Harold Hicks of Madison was honored with a party celebrating his fourth birthday in the home of his grandmother, Mrs. M. A. Rich, on Fifth street. There were amusing games planned for the occasion and, after an enjoyable time, the guests were served lunch.

Included were Harold's mother, Mrs. Mike Duko, and Glen Ahner, Arnold Hamm, Pat Davis, Buddy Teeter, Donald and Betty Milap, Shirley Jean Rich, Jesse and Pansy Lee Teeter, Catherine Schroeder of St. Louis, Mrs. Rich and the honor guests.

This evening, Mrs. J. C. Hinde will entertain ladies of the Matrons' Literary Club in the home of T. T. Hinde. At the last meeting, with Mrs. J. J. Purcell on Fifth street, there were three guests, Miss Mae Morgan, Mrs. L. L. Quigley and Miss Frieda Mielke.

An enjoyable day was spent in the home of Mrs. Roy Mitchell of Mitchell by members of the Arts and Crafts class Tuesday. A pot luck dinner was served at noon. There were handkerchief showers for Mrs. Charles Hildner, Mrs. Eleanor Hackett and Mrs. John Mitchell. They are having their birthdays.

The Ladies' Union met Wednesday at the Presbyterian Church. Final plans were made for the annual bazaar on Friday, and the various committees were appointed. Those named were Mrs. Charles Adams, Mrs. John Dale, Mrs. Wilbur Marling, Mrs. James Lynch and Mrs. Fred Werner.

Mrs. Elmer Jackson entertained her bridge club Monday evening at her home on Delmar avenue. All members attended the party, and honors went to Miss Fay Beiler, Miss Virginia Kelsh and Miss Elizabeth Marshall.

One of the most delightful of the mid-season parties was given Wednesday by Mrs. Walter Pershall and Mrs. Lucian Dresser at Mrs. Pershall's home on Delmar avenue. Contract bridge was the diversion of the afternoon and those who enjoyed receiving favors were Mrs. Helen and Poland, Mrs. M. P. Sullivan, Mrs. Storm, Mrs. A. P. Storer, Mrs. Varnum and Mrs. Toby Todd.

**FAVORS TREATMENT OPPOSES SEWERS**  
To the Editor:  
The city election Nov. 26 will decide the issue on a much needed pollution plant to stop contamination of our river water.

The major contamination is not from families but industries, including all refineries located at Wood River and industries in the Quad-City area.

Interceptor sewers at a cost of \$2,500,000 would take out 250 tons of sewage daily. It is a waste of money to build a plant to take out water that is already clean.

Wide Range in Charges

For Interceptor Sewers

(Second of a series)

"What will it cost?" is one of the questions being considered by Granite City voters prior to the election Tuesday, Nov. 26, on construction of interceptor sewers and a treatment plant. The answers range from \$1.10 a month to \$6 or more, depending on several factors.

If a large sewerage treatment plant only is built for \$1,700,000, a 35-year revenue bond issue will be paid through monthly charges. For residences and apartments, the payment would be \$1.10.

If interceptor sewers also are installed, making it possible to build a smaller treatment plant, families will pay two charges:

1. Ninety cents a month for a \$1,400,000 treatment plant financed by 35-year revenue bonds.

2. An additional real estate and personal property tax, amounting to 2 1/2% of the current tax bill, for a 20-year \$2,500,000 general obligation bond issue to finance interceptor sewers.

In either case, the charges are in addition to \$2.50 monthly payments already being made in the Nameoki area for sanitary sewers. If sanitary sewers are built in the Nameoki area, those residents also would pay \$2.50 a month for them.

The monthly sewer costs given below show how the Nov. 26 election proposal affects home owners in the two major sections of the city—the older part, where there are combined sewers, and the Nameoki area, where there are separate sanitary sewers.

Older part of City, Nameoki Area  
Large Treatment Plant (without interceptors) \$1.10  
Small Treatment Plant (requires interceptors) .90 \$3.40

All Areas Of Granite City (including Nameoki)  
If Your Yearly Tax Bill Is:  
\$100 .23  
\$200 .46  
\$400 .92  
\$600 1.38  
\$800 1.84  
\$1000 2.30  
\$1200 2.76

From this it can be seen that for a large treatment plant only, total monthly payment would be \$1.10, or \$3.60 in the Nameoki area. For a small treatment plant and interceptor sewers, total cost would range from \$1.10 to \$3.66 in the older part of the city, and from \$3.63 to \$6.16 in the Nameoki area.

The treatment plant charge for commercial and industrial users is not defined yet but has been estimated at about half of their water bills. They also would be charged 2 1/2% of their property taxes for interceptor sewers.

The amount or length of payments would be reduced if the sewer program qualifies for a federal grant. At 30%, the limit of federal grants such aid could reach a maximum of \$600,000, if interceptors are built, or \$510,000 otherwise.

The city council Special Pollution Committee, in urging approval of interceptor sewers as a means of getting the most value from each dollar spent, cites the difference of about \$300,000 in the cost of sewerage treatment: \$940,000 for operation-maintenance costs each year; \$11,900 less in annual revenue bond interest cost; and more economical installation of the Nameoki road interceptor sewer carried out now, due to scheduled repaving of that street.

(The next article will compare the charges listed here with the cost of the original pollution-drainage proposal defeated a year ago.)

those on social security and inflation. But in every definition, that fear itself is not a crime. It is a crime to be afraid of the future. It is a crime to be afraid of the future. It is a crime to be afraid of the future.

Neither God nor the apostle Paul recognized such things as an ethical superiority or inferiority. Paul declared, "God that created the world and all things therein, has made of one blood all nations of men for to dwell on the face of the earth."

Surely, too, our nation was committed to equality under the law by its founding fathers. By every concept of true Christianity and equal rights under the law, prejudice and discrimination is an evil that poisons the heart and erodes the Christian spirit. To whatever extent we harbor and practice it, we are deficient in Christianity and good citizenship. To the extent our talk and demeanor are derogatory and contemptuous of other races, we encourage bombing and rioting.

I would rather live by the Bible and Christian principles and the responsibilities of a good citizen rather than have hate and crimes on my conscience. How would citizens of Granite City like to see their city publicized across the nation? I would like to see it publicized as a city that was not prejudiced against any race, but that was a city where all citizens were treated equally and where all citizens were treated with respect.

## Warning To Spies—Quad-Cities Are 'Off Limits'

We are not aware of much "cloak and dagger" activity occurring locally but, just the same, there is some comfort in the knowledge that Madison county has been formally designated as "off limits" to Communist spies.

Espionage is illegal anyway, but the Reds for years have made effective use of diplomats and visitors from Russia and its satellite countries. Now, based on a State Department order, East European travelers will not be permitted in 25% of the U.S., including the Quad-Cities. Russians previously were banned.

The open society in which we live has too often been "leaky pickings" for enemy agents interested in defense plant activity and military information. Now it will not be quite so open for the Communists, at least those traveling officially.

## Extensive Training In Quad-Cities To Meet Changing Job Requirements

Granite City night classes for years have aided adults in increasing their knowledge and skills to keep pace with the abilities required by new jobs. Now, still greater attention is being given to the simultaneous effort to curb unemployment and provide sufficient manpower for work that needs to be done.

Establishment of the Steel Institute this fall expanded local job training, and the Madison and Venice school districts are considering starting general educational development courses this winter, with Venice possibly broadening the night instructional program later. Aided by a Federal Manpower Development and Training grant, the first of two nurses' aide classes is scheduled to start this week in Granite City.

To be genuinely helpful, "aid" programs must help make a difference in the community. Through the combined efforts of schools, businesses, citizens and government agencies, job training and retraining has reached large proportions in the Quad-Cities.

## Long, Dedicated Service To Ill By Mrs. Leaton

Among the most outstanding examples of voluntary service to the local community is that of Mrs. Freda Leaton of Venice.

The 1000 hours she has contributed during the past three years at St. Elizabeth Hospital have included leadership of the Pink Ladies and Candy Strippers, groups also composed of volunteers willing to devote their time to the welfare and happiness of others. The recognition certificate Mrs. Leaton has been awarded is well deserved.

## Plant Proposal Would Assure Continued Madison City Revenue

As the city of Madison nears the end of the 25-year bond which it bought the Chain of Rocks Bridge in 1939, there has been widespread interest in how it will use the multimillion-dollar "jackpot" that is being accumulated.

At least part of the answer was given last week when city officials indicated they are willing to invest about \$2 million in construction of a plant tailored to meet the specific needs of an industry which must be located in Madison or within five miles of it.

The industry, in return, would sign a lease of 15 or more years, guaranteeing to operate the plant, broaden local job opportunities and pay a yearly rental fee to the city of possibly \$200,000.

The prospect of more jobs is attractive, and the rental plan would assure continued extra income for Madison, which has a comparatively small tax base and has become accustomed to receiving \$100,000 a year from bridge revenue under terms of a bond refinancing program. Exact status of the bridge after the bonds have been paid off next year has not been disclosed, but such proceeds as the \$100,000 payments probably will end.

While it is not yet known whether an industry will accept the city's plant construction proposal, the plan has been tried successfully in other parts of the country. A negative factor, of course, would be any loss of real estate taxes caused by municipal ownership of the manufacturing facilities.

The announcement again calls attention to growing awareness of the value of industry to a community, and the related need for a "climate" conducive to establishment and expansion of plants and the jobs they provide.

### Double-Ring Ceremony For Burgess-Nichols Nuptials

Altar bouquets of white gladioli and pom poms adorned the altar of St. Elizabeth Catholic Church Saturday afternoon for the wedding of Miss Barbara Ann Nichols, a daughter of Mr. and Mrs. Eugene V. Nichols, 2308 Gary avenue, and William C. Burgess, whose parents are Mr. and Mrs. Cecil Burgess, 2121 Woodlawn avenue.

Rev. Fr. John Franklin performed the double-ring ceremony at 2:30 o'clock. A program of wedding music was furnished by Mrs. Francis Judd, organist, and Richard Judd, vocalist. The songs were "The Lord's Prayer" in marriage. She wore a gown of pure white delustered satin fashioned with a scoop neckline and long tapered sleeves. Re-embroidered Alencon lace motifs on the bodice extended down the sides of the dome-shaped skirt, which swept into a wide train with self bows and lace motifs at the waist. A fingertip veil of silk illusion was held in place with a lace and pearl pill box.

The bridegroom wore a tuxedo with a white shirt and bow tie. He carried a cascade of white roses and stephanotis with a detachable corsage in the center.

Mrs. Matthew Kozyak was matron of honor, and bridesmaids were Miss Kathleen Weissenborn, the bride's cousin, and Miss Linda Sparks.

All 14 brides were dressed alike in bon bon colored satin designed with rounded necklines and elbow-length sleeves. The long, domed skirts featured self trim bows at the waistlines and tulle panels cascading down the back. Matching floral

headpieces with tiny veils completed their costumes, and their flowers were cascade type bouquets of bronze chrysanthemums with greenery and gold ribbon.

Cheryl Diane Hopper and Glibby Ferrato served as flower girl and ring bearer. The former was in long white lace dress with a square neckline and short puffed sleeves. A satin ribbon sash encircled the waist and she wore a headpiece of white peau de soie. Her bouquet was a smaller copy of the bridesmaids' flowers.

For her daughter's wedding Mrs. Nichols selected a three-piece navy blue knit suit and white accessories; while the bridegroom's mother was in a powder blue suit with teal accessories. Both had white orchid corsages.

Matthew Kozyak served Mr. Burgess as best man, and the corps of groomsmen and ushers was made up of James Talley, Herman Schaefer, Joe Nemath and Ronald Boring.

A reception was held at the American Legion Home on Madison avenue. Misses Theresa Weissenborn and Madeline Eperson, cousins of the bride and groom, were in charge of the guest book.

The bride and groom are both graduates of the Granite City high school and Mr. Burgess later graduated from the Belleville Barber College. He is now employed by the Suburban Barber Shop. The bride is employed by the General American Life Insurance Co.

The bridegroom's parents gave the rehearsal dinner Thursday evening at the Rose Bowl. Sixteen were present.
